Details

Description

Polish IT recruitment company is one of the fastest growing companies in Poland providing IT professionals outsourcing and recruitment services and recruiting experienced IT staff ready to relocate to other countries or work remotely.

The company offers its clients three main services:

1. Creation of IT team/subsidiary in Poland for foreign companies interested in entering Polish market or those who are already here and are looking for decreasing their personnel costs.
2. Permanent recruitment of IT professionals from Poland and Central and Eastern Europe (CEE) - the company offers its clients support in the full time employment of different IT professionals.
3. Contracting of IT professionals from Poland and CEE countries - the company offers its clients support in engagement of different IT professionals in contracting model (personal outsourcing).

The company has a permanent base of IT subcontractors and freelancers and is offering cooperation on the basis of outsourcing agreement (the type of cooperation proposed is the temporary or permanent transfer of employees from the company to the client depending on the chosen type of cooperation).

Advantages and innovations

Polish programmers are among the best in the world, while still offering competitive prices. According to a ranking conducted by HackerRank, they took third place out of 50 classified countries. As for the Java programming language they were recognized as the best in the world.

The majority of recruited by the company candidates speak fluently in English and are ready to relocate to other countries or to work remotely from home which is a much more cost-effective option for the future client.

The company offer helps to optimize clients costs of IT personnel and at the same maintain a high level of provided services.
